ICANN Business Constituency (BC) Comment on [Transfer Policy Review Working Group Final Report for ICANN Board Consideration](#)

16-Jun-2025

Background

This document provides input from the ICANN Business Constituency (BC), from the perspective of business users and registrants. We advocate for ICANN policy that:

1. promotes end-user confidence because it is a safe place to conduct business
2. is competitive in the supply of registry and registrar and related services
3. is technically stable, secure and reliable.

General Comment

The Business Constituency (BC) appreciates the opportunity to provide input on the [Transfer Policy Working Group’s Final Report for the ICANN Board’s consideration](#).

The BC wishes to extend its gratitude and appreciation to the entire Working Group and in particular to its Chair, Roger Carney and to ICANN Staff, for guiding the Working Group to Consensus on all Recommendations including in the Final Report. The BC was pleased to participate in this extensive process of review and deliberation and appreciates the challenges involved in reaching Consensus.

While the BC may have some disagreement with some aspects of the Recommendations, the BC recommends that the Board fully adopt all Recommendations in the Final Report as they are the product of compromise and Consensus-building amongst diverse stakeholders.
